

Online CC-P® Prep Programs

A Series of Live Training Programs

Live Online CC-P® Prep Program

(Co-Presented by PADEP)

The Association of Climate Change Officers (ACCO) is offering a series of live online training programs to help Pennsylvania state agency personnel build competencies to effectively integrate climate change into their decision-making, program management and professional activities. This series provides participants with training in a peer cohort environment that will prepare them for the Certified Climate Change Professional® (CC-P®) credential exams by leveraging a combination of video homework, live training and interactive exercises/discussions.

Participants will learn from experts and practitioners about the implications of climate change, and related opportunities, for Pennsylvania state agencies, infrastructure, residents and businesses. The curriculum has been designed to benefit professionals across a broad range of environmental program and policy roles and will incorporate regionally oriented case studies and scenarios for Pennsylvania and the mid-Atlantic United States.

All classes are recorded and made available on the class portal. While we encourage you to participate in the live programs, you can catch up on missed classes using the recordings.

Delivering Value

Skills and Competencies Addressed in these Programs	Becoming a CC-P®
<ul style="list-style-type: none"> Recognizing situations where climate change scenarios affect operations, mission and bottom line Assessing implications of specific situational outcomes Enterprise management of climate-related initiatives Evaluating climate risks and opportunities Managing short-term and long-term uncertainty Tailoring communication to different audiences Leading organizational change initiatives Attributing value to resource consumption Extending organizational capabilities and maintaining good stewardship through collaboration and partnership Developing strategies for bundling, comparing and/or relying upon existing management models 	<p>The CC-P® reflects your capacity to integrate an understanding of climate change and related implications into the day-to-day decision-making required.</p> <p>For Live Online Registrants:</p> <ul style="list-style-type: none"> Prep materials for CC-P® exams Recordings of class lectures and materials CC-P® exam fees waived Guidance from ACCO staff on submitting application paperwork to earn the CC-P® Dedicated class portal with all course materials, exam prep resources and recordings of class sessions
